

Exclusive Representation in Ontario

Northwest Atlantic (Canada) Inc. Brokerage is pleased to announce real estate expansion plans for the Toronto and Ottawa markets for our clients **Crate and Barrel** and **CB2**.

The Crate and Barrel banner specializes in a variety of contemporary and durable lifestyle products including housewares, furniture and home accessories, all at reasonable prices. The stores are known for their innovate displays and product arrangement, allowing customers to see how items might appear in their homes. Since opening its first store in Chicago in 1962 the American based chain has grown to 160 stores in the U.S. and currently operates one Canadian store at Yorkdale Shopping Centre in Toronto. A second Canadian store is set to open at Southcentre Mall in Calgary in the fall of 2009.

The CB2 concept features affordable, modern housewares and furniture for apartment, loft and home. The CB2 stores cater to the urban lifestyle and its offerings are tailored towards smaller living areas, clean design and utilization of space. Currently operating 6 stores in the U.S., CB2 is looking to make its entry into the Canadian market.

Crate and Barrel and CB2, in partnership with Northwest Atlantic, seek to expand their Canadian presence.

- Crate and Barrel is currently focused on adding stores to the Greater Toronto Area and Ottawa markets. Crate and Barrel looks for dominant, regional shopping centres or high profile street locations that can accommodate 25,000 sq. ft. on one level or 30,000 sq. ft. on two levels.
- CB2 is looking to create their first Canadian store in Toronto. CB2 requires an urban street front location with great fashion retailers and strong walkby traffic. The high profile street location needs to accommodate 12,000 sq. ft. on one level or 14,000 sq. ft. on two levels.
