

EXCLUSIVE REPRESENTATION ACROSS CANADA

FRESH HANDMADE COSMETICS

Northwest Atlantic is very pleased to announce their newest client **LUSH** and their real estate expansion plans within Canada. **LUSH** products include the “pic’n’mix” skin care at the cleansing bar, chunks of solid shampoo, hair moisturizers and conditioners, bubble bar slices, massage bars, soaps and **LUSH**’s ultra-fresh face and body masks served up on ice.

LUSH uses the freshest, organic (wherever possible) ingredients such as bananas, papaya, pineapple, avocado, limes and strawberries for every product. Bottled and all bulk products for Canada and the U.S. are made in Vancouver or Toronto factories every week and immediately sent to the shops for retail.

LUSH’s new, specialized exhaust system continually and successfully clears the fragrance from within the Premises as has been demonstrated in their recent stores at Market Mall, Polo Park and Pickering Town Centre. We invite you to visit one of these stores and experience it for yourself.

LUSH, in partnership with **Northwest Atlantic**, is committed to opening an additional 10 stores in Canada each year for the next 3 years. **LUSH** seeks retail opportunities of 500-1,000 sq. ft. and are ideally suited for enclosed centres and/or high profile street front locations with a minimum 20 ft. frontage within major markets across Canada.

Please visit their website at www.lush.com
